Report on Jefferson County Interim Multi-Hazard Mitigation Plan

On February 9, 2010, the Birmingham City Council and Mayor adopted and approved Resolution 135-10. Specifically, this Resolution provided for the formal adoption of the 2009 Jefferson County Interim Multi-Hazard Mitigation Plan, dated October 2, 2009.

To satisfy the City's Community Rating System annual recertification and floodplain management plan reporting requirements, an annual progress report must be submitted to the Mayor and City Council, be released to the media, and be made available to the general public. As such, the 2012-2013 CRS Program Status Report on Jefferson County Interim Multi-Hazard Mitigation Plan is provided as an attachment to this memorandum. The media as well as the public has been notified on how to obtain a copy.
